

# The Equator<sup>®</sup> Convective Warming System

## CONVECTIVE WARMING FROM THE NAME YOU TRUST: LEVEL 1<sup>®</sup> FLUID WARMERS

Digital temperature display

Four temperature set-points

Over-Temperature, Under-Temperature, and Disconnect Alarms

Blanket Storage

4 Hose-end Openings

Right Angle Hose Connector

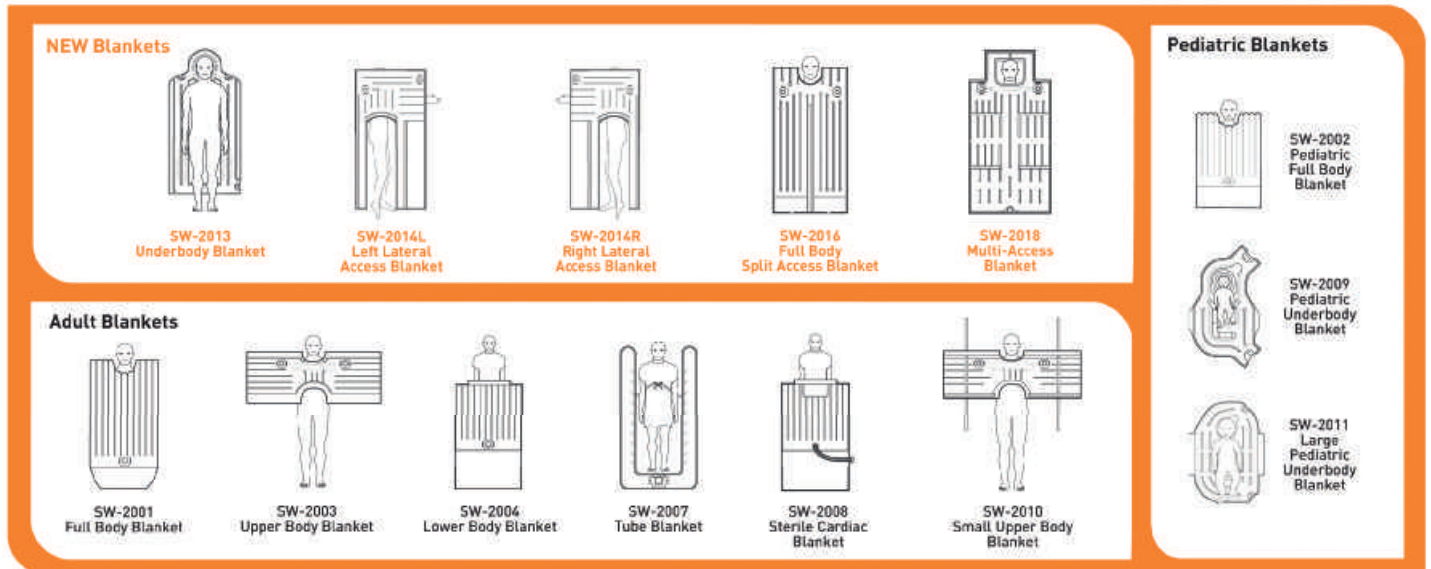

### Equator<sup>®</sup> Convective Warmer Benefits

- Four temperature settings allow you to select the temperature appropriate for every patient
- Airflow up to 2,400 fpm optimizes warming outcomes
- Patented hose-end temperature control and high air flow facilitate consistent and controlled temperature of air delivered regardless of ambient temperature
- Over temperature, Under Temperature, and Disconnect/ Occlusion Alarms facilitate warming delivery to your patients
- Over-Temperature Alarm at each temperature setting promotes patient safety
- Right-angle hose connector provides a less obtrusive entry into the blanket
- Four hose-end openings facilitate positive air flow if hose-end is occluded by blanket material, helping to prevent heat build-up in one area over your patient
- Secure blanket connection helps prevent disconnects for consistent performance
- Draws only 8 amps for energy efficiency
- Quiet operation will allow you to focus on your patient

# Snuggle Warm® Convective Warming Blankets

## Snuggle Warm® Blankets are...

- Made of soft fabric-like material that is comfortable next to patient's skin — no hot plastic
- Strong and durable — resists tears, punctures and fluids
- Designed to conform to the patient, eliminating the need for tie-downs, making set-up easy and improving patient access
- Foldable design and material allow easier access to I.V. sites and the patient
- Latex free and radio translucent
- Available in multiple configurations for all clinical applications
